

Applicant: Livet et al.
Application No.: 10/648,005

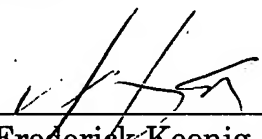

REMARKS

The Specification is being amended to reflect the correct filing date of the parent provisional application as amended by the U.S. Patent Office by their April 30, 2003 Petition decision. A Supplemental Application Data Sheet which has been updated to reflect inventor Livet's address and the correct priority data is enclosed.

Early consideration and allowance of the pending claims is respectfully requested.

Respectfully submitted,

Livet et al.
